About

AUTHOR
Adam Suhy, Ph.D.

RELEASED
July 2019

This report is designed for spine industry manufacturers, market analysts, providers, and investors who are interested in the spine biologics business and related products. In-depth topics include prospective patients, surgeons, hospitals, and manufacturers of both naturally derived and synthetically produced biologics.

Market Scope

2019 Spine Biologics Market Report

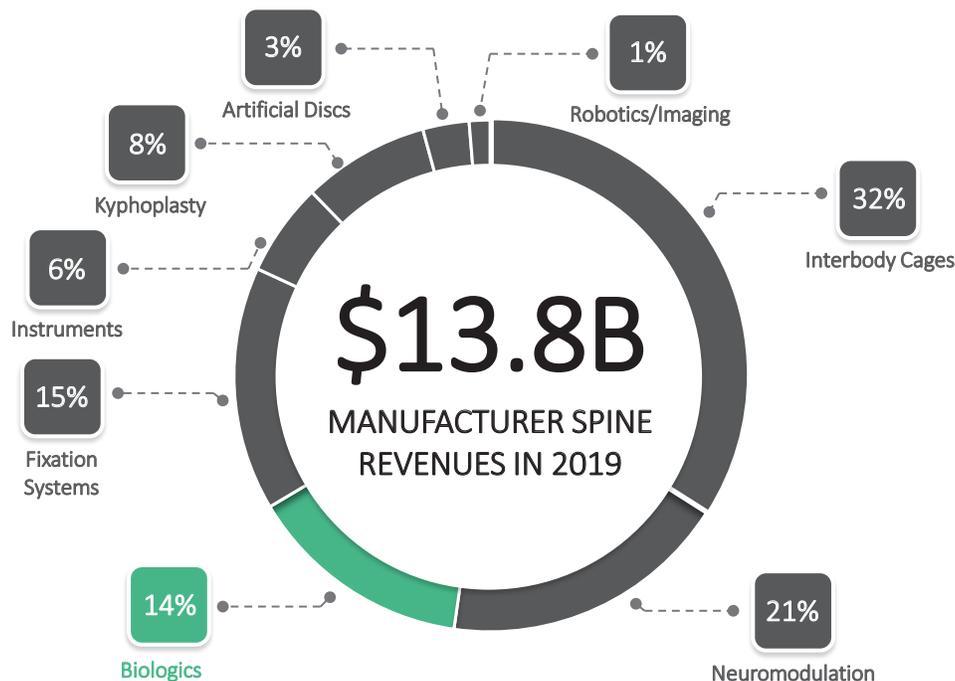

Market Scope's 2019 Spine Biologics Market Report provides in-depth coverage of the market, identifying important trends and key factors for future success. Our analysis includes data for 2018, and forecasts performance through 2024.

Key areas:

- Regional analyses of practice and education trends among spine surgeons
- Economics of spine surgery
- History and future of biologics product types
- Market-leading company profiles

In-depth topics:

- Clinical data synthesis
- Global trends in back pain treatment
- Strengths, weaknesses, and major product offerings of market leaders

Information in this publication has been compiled from a variety of primary and secondary sources, including published medical research, financial filings, investor presentations, and research presentations at industry meetings. Market Scope does its best to triangulate data used in this report by looking at the end-user market, the physician market, insurance and public health system data, and manufacturers' reports. Each data set provides part of the story; data synthesis provides a complete view of the market.

Our Process

Market Scope's industry reports are meticulously prepared by a dedicated team of in-house analysts with over 100 years of collective medical market research experience. Each data point is driven by a combination of sources, including the following:

- Analysis of published financial reports
- Focused coverage of scientific research, business news, and other activities
- Attendance at and participation in worldwide orthopedic meetings
- Interviews with company executives and practicing orthopedic physicians
