About

AUTHOR
Peter Downs

PUBLISHED
June 2021

The “2021 China Ophthalmic Market Report” features a new section on corneal diseases and the treatment market, as well as a new regional breakdown of cataract surgeries and patients suffering from glaucoma and dry eye. This report examines the impact of bulk tenders for public hospitals, analyzes the effects of the new Five Year Plan, and lists the leading eye care providers by province. In addition to updated forecasts throughout, the report also features new glaucoma pharmaceutical forecasts by drug class and new forecasts for dry eye by risk group. New ophthalmic product candidates at Chinese pharmaceutical companies also are analyzed.

Market Scope

2021 China Ophthalmic Market Report

The “2021 China Ophthalmic Market Report” is the leading industry source for accurate and relevant information on all aspects of China’s ophthalmic market. This report provides a comprehensive overview of the Chinese population and economic conditions. It also covers disease prevalence and therapeutic approaches, including commercialized and pipeline products. The report analyzes unit demand and revenue and forecasts future performance over the next five years. It also includes market share data and discusses key strategic issues.

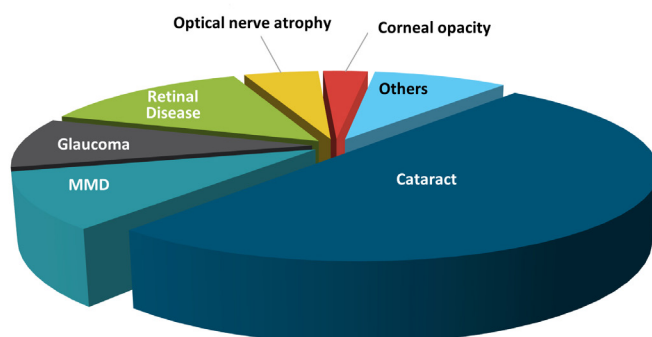

The following information is discussed in the report:

- Overview of China, including an analysis of population demographics, the Chinese economy, and China’s health care infrastructure.
