The “2021 Fundus Imaging Market Report” features market forecasts through 2026 and includes refined estimates according to new industry and financial information that has been released. The report analyzes 91 devices from 39 manufacturers and categorizes the market into four segments based on device price and features. It features an in-depth review of models by category and discussion of regulatory processes in key geographies for fundus imaging devices

Market Scope

2021 Fundus Imaging Market Report

This report offers a comprehensive analysis of the 2021 global market for fundus imaging devices and forecasts market performance over the next five years. It discusses important trends and key factors for future success.

The report provides background information about fundus imaging devices and divides estimates into four categories: fundus screeners, diagnostic fundus imaging, advanced fundus imaging, and combination systems. Estimates include unit sales, installed equipment base, average prices, and information about the manufacturers that participate in the market.

This report is a specialized supplement, expanding on the fundus imaging section of Market Scope's comprehensive, global “2021 Ophthalmic Diagnostic Equipment Market Report.”

The following information is included in the report:

- Background information on fundus imaging equipment
- Fundus imaging system segmentation, key features, and competitors.
- Estimates of unit sales, installed equipment bases, and average prices
- Information about manufacturers
- Manufacturer market share.

Global Market Share of Advanced Fundus Imaging Systems by Manufacturer

Fundus Imaging Revenue Components by Company

Market Scope has prepared this report for participants in the ophthalmic industry: diagnostic equipment companies, ophthalmologists, market analysts, investors, and anyone with an interest in fundus imaging devices or related products. This report is a specialized supplement, expanding on the fundus imaging section of Market Scope's comprehensive, global "2021 Ophthalmic Diagnostic Equipment Market Report."
