May 2022

The new “2022 China Ophthalmic Market Report” features updated market forecasts through 2027, expanded analysis of regulations, and new coverage of AI technology in diagnostics. The report now covers more Chinese companies, including providing more competitor profiles, in addition to providing more analysis of ophthalmic product candidates at Chinese pharmaceutical companies and a listing of companies with ophthalmic products in China. The report also examines the slower growth in cataract surgery, as the government shifts its focus from the front of the eye to myopia prevention and chronic eye disease.

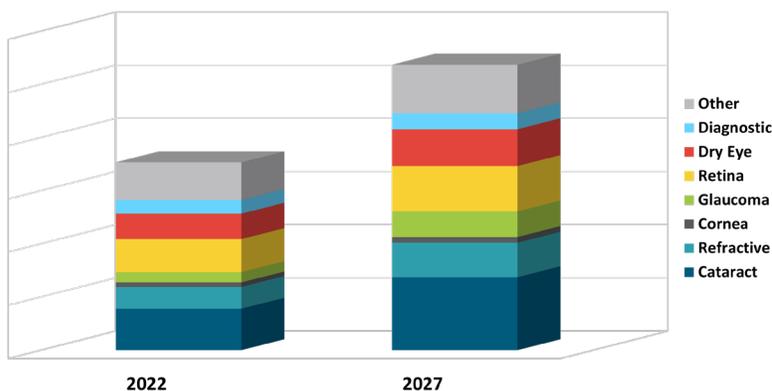

Market Scope

2022 China Ophthalmic Market Report

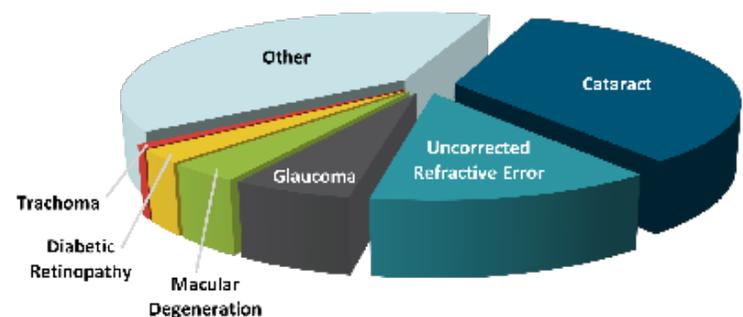

The “2022 China Ophthalmic Market Report” is the leading industry source for information on all aspects of China’s ophthalmic market. This report provides a comprehensive overview of the Chinese population and economic conditions. It also covers disease prevalence and therapeutic approaches, including commercialized and pipeline products. The report analyzes unit demand and revenue, and it forecasts future performance over the next five years. It also includes market share data and discusses key strategic issues. Additionally, 31 market competitors are profiled, with discussion of their products, strategic market position, background, and outlook. The following information is discussed in the report:

- Overview of China, including an analysis of population demographics, the Chinese economy, and China’s health care infrastructure.
- Disease prevalence data.
- Ophthalmologists, surgeons, optometrists, hospitals, and clinics.
- Surgical treatments.
- Surgical instrument and technology usage.
- Ophthalmic pharmaceutical treatment regimens.
- Five-year forecasts for market performance.
- List of companies with ophthalmic products in China.
