PUBLISHED
November 2022

The “2022 Dry Eye Products Market Report” now covers more device and pharmaceutical treatment options and features new survey data, updated disease modeling, and expanded risk factor analysis. Report additions include an analysis of the prescription market by active agent and more detailed forecasts for plugs, tissue, and lenses. The 2022 version profiles 33 market competitors and also lists additional companies that are not profiled.

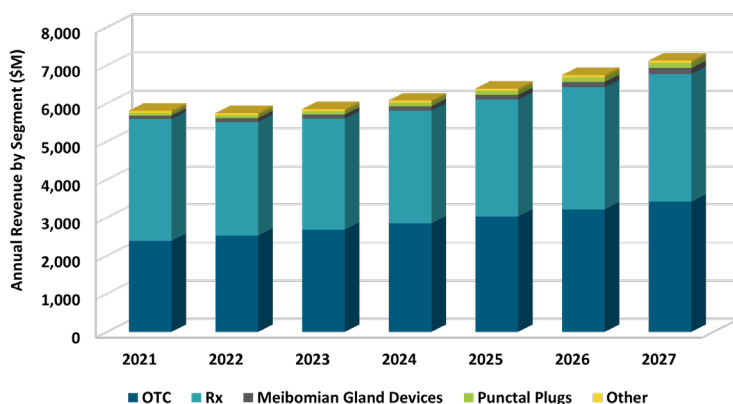

Market Scope

2022 Dry Eye Products Market Report

Market Scope’s “2022 Dry Eye Products Market Report” analyzes the current marketplace and forecasts market performance over the next five years. The report examines dry eye syndrome’s etiology, diagnosis, and treatment; the prevalence of dry eye; Rx therapeutics for dry eye; over-the-counter lubricants; thermal expression, IPL, and punctum plugs; and additional dry eye procedures and products. It also includes profiles of the companies that make and distribute dry eye products. The following information is included:

- Overview of dry eye disease
- Diagnosis and treatment of dry eye
- A global view of dry eye care providers
- Current estimates and five-year forecasts for dry eye in our eight analytic categories
- Dry eye Rx products in the marketplace
- Instruments used for manual expression of meibomian glands
- Devices and procedures used to treat dry eye
- OTC products for dry eye
- Investigational agents in the development pipeline
- Profiles of companies developing, making, and marketing dry eye products

Global Revenue for Dry Eye Products by Segment

Global Population with Dry Eye Signs & Symptoms By Region

Market Scope uses eight categories defined by region and economics in our analysis: the United States, Western Europe, Japan, Other Wealthy Nations (OWN), China, India, Latin America, and Rest of World (ROW).

Our OWN category is made up of a mix of nations with higher per-capita gross domestic products—Canada, South Korea, and the United Arab Emirates are examples. The ROW category is a catch-all category for nations not included elsewhere. ROW nations have diverse economies and a significant range of development levels. Namibia, Indonesia, Turkey, and Russia are examples.
