The new “2022 Ophthalmic Surgical Instruments Market Report” features refreshed data and updated forecasts highlighting market growth through 2027. The report analyzes how surgical instrument company acquisitions and consolidations are creating a global market dominated by large surgical device companies, examining Corza Medical’s acquisition of one of the world’s largest reusable instrument companies and Carl Zeiss’ significantly increased market presence. It also now distinguishes between ophthalmic only and multispecialty participants, with 80 percent participating in only ophthalmology.

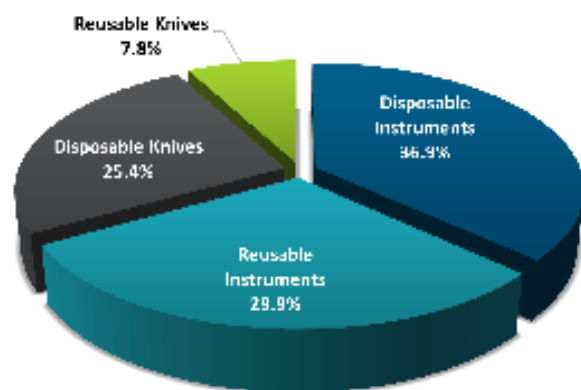

## *Market Scope*

# 2022 Ophthalmic Surgical Instruments Market Report

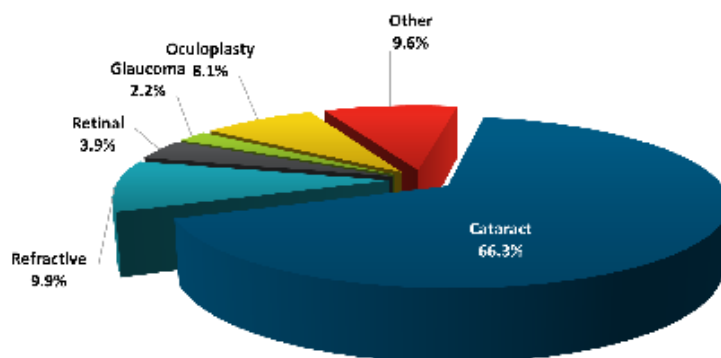

The report provides a comprehensive analysis of the 2022 global market for ophthalmic surgical instruments—both reusable and disposable—and forecasts market performance over the next five years. Important trends, market drivers, and key factors for future success are discussed. The report offers an overview of ophthalmic surgeries and surgery volume worldwide, as well as an in-depth look at providers of cataract surgery, the most commonly performed ophthalmic surgery. The following information is included:

- Descriptions of reusable and disposable ophthalmic surgical products
- Profiles of companies in the reusable and disposable ophthalmic surgical products industry
- Information on the global incidence of cataracts and global statistics on cataract surgeries
- Current estimates and five-year forecasts for cataract surgery volume worldwide
- Discussion of refractive lens exchange procedures
- Information on ophthalmic surgery providers
- US ASCs and cataract surgery providers worldwide
- Review of global cataract and glaucoma and treatment methods
- Global overview of ophthalmologists
