The “2022 Optical Coherence Tomography Market Report” analyzes 53 devices from 17 manufacturers and categorizes the market into five segments based on device price and features. The report includes an in-depth review of models by category, and a review of the regulatory process in key geographies.

## *Market Scope*

# 2022 Optical Coherence Topography Market Report

The “2022 Optical Coherence Tomography Market Report” provides a comprehensive analysis of the global market for OCT imagers and forecasts market performance over the next five years. It analyzes the market drivers for the OCT segment, including providers, related diseases, competitive forces, and market trends. Market estimates are divided into six categories: basic OCT models, advanced OCT models, combination OCT/fundus systems, combination OCT/SLO systems, OCTA, and intraoperative OCT. Estimates are included for unit sales, installed equipment base, and average prices. Additionally, 12 OCT manufacturers are profiled, discussing their products, strategic market position, background, and outlook. The following information is also included:

- Background information about OCT equipment.
- Estimates of unit sales, installed equipment base, and average prices.
- Information about manufacturers and devices offered.
- Manufacturer market share.

## Our Process

Market Scope’s industry reports are meticulously prepared by a dedicated team of in-house analysts with over 100 years of collective ophthalmic market research experience. Each data point is driven by a combination of sources, including:

- Our proprietary global disease population and demographic models
- Analysis of company-published financial reports
- Focused coverage of ophthalmic scientific research, business news, and other activities
- Attendance and participation in worldwide ophthalmic meetings
- Interviews and relationships with company executives and practicing physicians
