Our Process

Market Scope's industry reports are meticulously prepared by a dedicated team of in-house analysts with over 100 years of collective medical market research experience. Each data point is driven by a combination of sources, including the following:

- Our proprietary global disease population and demographic models;
- Analysis of company published financial reports;
- Focused coverage of orthopedic scientific research, business news, and other activities;
- Attendance and participation in worldwide orthopedic meetings;
- Interviews and relationships with company executives and practicing orthopedic physicians.
