About

AUTHOR
Adam Suhy, Ph.D.

RELEASED
February 2019

The primary purpose of this report is to analyze the neuromodulation market within the overall spine market, identifying important trends and key factors for future success. This report focuses on the 2019 neuromodulation market and forecasts market growth and evolution over the next five years; it focuses on neuromodulation intended for treating back and radicular pain.

Market Scope

2019 Spine Neuromodulation Report

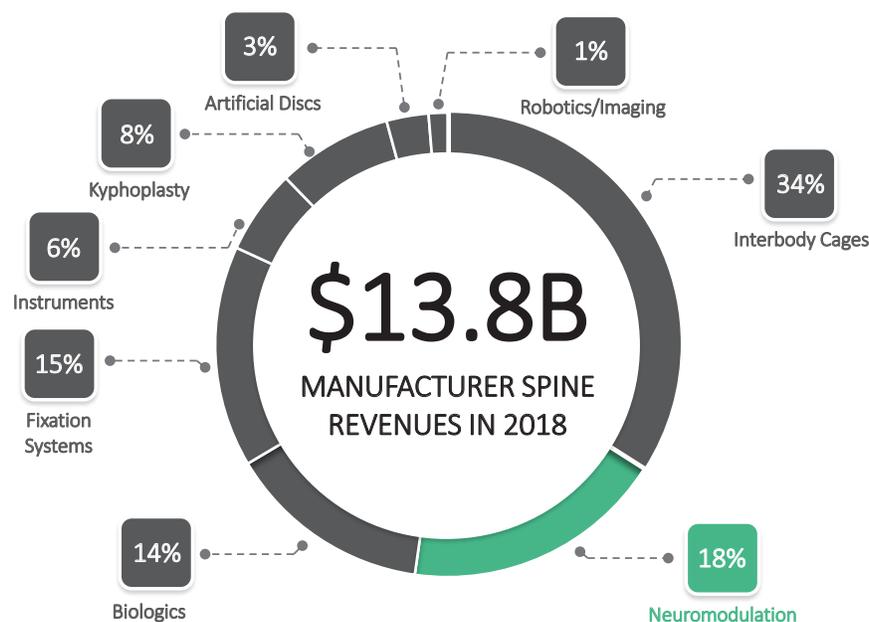

Market Scope's 2019 Spine Neuromodulation Report provides in-depth coverage of the market, identifying important trends and key factors for future success. The report also covers surgeons, hospitals, and manufacturers of neuromodulation products. Our analysis includes market data for 2018, and forecasts market performance through 2024.

Key areas:

- History of neuromodulation
- Clinical trials
- Neuromodulation systems
- Stimulation modalities
- Advances
- Market leaders
- Company profiles

In-depth topics:

- Prospective patients
- Types of stimulators
- Stimulation modalities

Information in this publication has been compiled from a variety of primary and secondary sources, including published medical research, financial filings, investor presentations, and research presentations at industry meetings. Market Scope does its best to validate data used in this report by looking at the end-user market, the physician market, insurance and public health system data, and manufacturers' reports. Each data set provides part of the story; data synthesis provides a complete view of the market.

Our Process

Market Scope's industry reports are meticulously prepared by a dedicated team of in-house analysts with over 100 years of collective medical market research experience. Each data point is driven by a combination of sources, including the following:

- Our proprietary global disease population and demographic models;
- Analysis of company published financial reports;
- Focused coverage of orthopedic scientific research, business news, and other activities;
- Attendance and participation in worldwide orthopedic meetings;
- Interviews and relationships with company executives and practicing orthopedic physicians.
